DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8, 11, 14, 17, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Hunter (4,479,516). Hunter discloses a drive mechanism for a drug delivery device (toothbrush) comprising an epicyclic gearbox (18) and a method of assembling a drug delivery device comprising an epicyclic gearbox.

Allowable Subject Matter

Claims 9-10, 12-13, 15-16, 18-19, and 21-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 23-25 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 8-25 have been considered but are moot in view of the new ground(s) of rejection.
